LOT 7

BULL STATS: VST 13-76
Weight = 565kg
Scrotum circumf. = 42cm

Dam: Jackie MHB 05-06
(KPO 786 x K6K 2228)

Sire: Rustin MHB 06-30
(KPO 21 x Marula 25)

VST 13-76 (Jackie MHB 05-06 x Rustin MHB 06-30)

Out of two of Vastrap's most reliable breeders, Jackie and Rustin. He undeniably has his father's head and deep eye-banks, with a great sheath and awesome testicles. Thrice line-bred to KPO 21 and should explode onto most other lines. A great all rounder!

BULL STATS: VST 13-73
Weight = 550kg
Scrotum circumf. = 38cm

Dam: Savanna TLM 00-03
(B 96-09 x HVT 95-03)

Sire: Rustin MHB 06-30
(Marula 25 x KPO 21)

VST 13-73 (Savanna TLM 00-03 x Rustin MHB 06-30)

Stunning genetics and from two near perfect parents, Savanna and Rustin. This bull is as correct as they come with perfect back and sheath, good width and depth and a manly head. A solid stud bull contender with an undeniable Vastrap stamp.

LOT 13

BULL STATS: VST 13-49
Weight = 660kg
Scrotum circumf. = 47cm
Good meat yield and
excellent growth in Phase
D performance test.

Dam: Ursula MHB 08-28
(FE 97-11 x Voorslag TLM 02-03)

Sire: Khan MHB 04-27
(KPO 786 x ADC 5761)

VST 13-49 (Ursula MHB 08-28 x Khan MHB 04-27)

His Forrester dam had incredible udders, teats and milk. He is the heaviest bull, with the most length and biggest testicles. He performed excellently in growth and meat yield with a very tidy sheath! Perfect to put size, fertility, milk and beef into your herd.
